04.22 Planning

04.22.01 To consider the application:

2022/24461/OHL | ENQ5453437: It is proposed to undertake the diversion of overhead line as works considered to be exempt from the Electricity Act 1989 by falling within Overhead Lines (Exemption)(England and Wales) Regulations 2009. | Former Coal Yard Adjacent To Leeds-Liverpool Canal Ings Lane Bradley BD20 9E

The Planning application has been removed from the portal as CDC consider it to be exempt. It is difficult to see how they have come to this conclusion when the relevant information has not been supplied.

A discussion followed as to how the Parish Council can reflect the concerns of residents on Ings Drive. When discussions were in progress between Northern Powergrid and the PC there was no mention of the cable having to be relocated in the field. Could we rescind the wayleave? Could the cable be placed underground until it reached further up the field away from the houses?

Resolved: That Cllr Coulson would compose a letter to Northern Powergrid stating that the Parish Council would propose the cable goes underground until further up the field. If this is not possible, the PC is minded to rescind the wayleave. The letter would be circulated to Members before being sent.

Resolved: That a letter be written to CDC Planning Officer asking how the exemption applies and what was the reasoning behind the decision that it was exempt. We would request this information before any decision is made on the placing of the power line.
